If you are the type of guy who likes to spend a lot of time in front of the computer and spend most of your time writing, you might want to check out the new Notepad Enhanced for Windows 10. With this handy program, you can transform your personal text editor into a full-featured Notepad. It supports all Windows 10 features, including Universal Windows Platform apps, Windows Ink, Live Tiles and even support for Microsoft Graph. What's new in the latest version: The latest version of Notepad Enhanced brings support for all features of Windows 10, including Universal Windows Platform Apps. Also, with this latest version, we've implemented a new feature to stop 'excessive' background updating when you hit the refresh button. 'Modify This Document': Windows 10 comes with a built-in app for modifying text documents called 'Modify This Document'. Notepad Enhanced's latest update makes this feature more powerful by adding a new toolbar: 'New Document'. 'The New Tab': Notepad Enhanced's 'New Tab' feature, which was introduced in Windows 10 1803, is now on by default in this version of the app. In the 'The New Tab' feature, the new tab will be highlighted in blue, which means you can easily jump to the new tab.
